

TEACHER'S NAME: _____ TSC NO: _____
SCHOOL/INSTITUTION: _____
FORM: 4
TERM:3
SUBJECT: AGRICULTURE
TOPIC: AGRICULTURE ECONOMIC IV (FARM ACCOUNTS)
SUB TOPIC: CASH ANALYSIS.
WEEK: _____ LESSON NO: _____
DATE _____ TIME _____

Objectives:

By the end of the lesson, the learner should be able to:

1. Define the term cash analysis.
2. Draw a cash analysis.
3. Compute total receipt and total expenditure for a given accounting period.

LESSON PRESENTATION

Introduction (5 minutes):

- Greet the students and introduce the topic of cash analysis in farm accounts. Explain briefly the importance of cash analysis in managing finances effectively.
- Ask students if they have heard of cash analysis and what they think it entails.
- Summarize their feedback to transition into the lesson.

Resources:

- Chalk board/white board
- A piece of chalk/ marker pen
- Textbook

Learning Activities:

- Class discussion
- Question and answer

Lesson Content (30 minutes):

Definition of Cash Analysis (10 minutes):

- Define cash analysis as the process of reviewing and evaluating cash inflows and outflows over a specific period. Discuss its purpose in assessing financial health and making informed decisions.

Drawing a Cash Analysis (10 minutes):

- Introduce the relevant format for cash analysis. Guide students step-by-step in drawing a simple cash analysis statement on the board, highlighting cash receipts and cash expenditures.

Computing Total Receipt and Expenditure (10 minutes):

- Present a worked example using sample data. Lead students through calculating total receipts and total expenditures. Encourage student participation for calculations.
- Provide a worksheet for supervised practice to reinforce the concepts learned.

Resources:

- KLB BK IV Pg 159-162
- Longhorn Bk 4 Pg 133-4

Learning Activities:

- Group work for drawing cash analysis
- Worked examples
- Supervised practice

Conclusion (5 minutes):

- Recap the definitions of cash analysis, the importance of total receipts and expenditures, and the method of drawing cash analysis statements.
- Encourage students to reflect on the key takeaways and emphasize the significance of accurate financial record-keeping in agriculture.
- Prepare students for the next lesson by giving a brief insight into the following topic, which will build on the principles learned in cash analysis.

Resources:

- Chalk board/white board
- A piece of chalk/ marker pen
- Textbook

Learning Activities:

- Summary discussion
- Questions from students

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____
SCHOOL/INSTITUTION: _____
FORM: 4
TERM: 3
SUBJECT: AGRICULTURE
TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS
SUB TOPIC: MARKET AND MARKETING.
WEEK: _____ **LESSON NO:** _____
DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

1. Define the term market as an institution.
2. Distinguish between a perfect and imperfect market.

LESSON PRESENTATION

Introduction (5 minutes):

Begin the lesson with a warm greeting to engage students and maintain a positive learning environment. Introduce the topic of "Market and Marketing" by explaining its relevance to agriculture and beyond. Pose a question to encourage interaction, such as "What do you think of when you hear the word 'market'?"

List the resources used:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

List of learning activities:

- Question/Answer session on definition of market
- Teacher's explanations

Lesson Content (30 minutes):

1. Definition of Market as an Institution (10 minutes)

- Explain the concept of a market as an institution where buyers and sellers come together to exchange goods and services.
- Highlight different types of markets in agriculture, such as local markets, regional markets, and international markets.
- Facilitate a discussion where students share their experiences with markets in their communities or any events they've witnessed.

2. Perfect and Imperfect Markets (20 minutes)

- Introduce the concepts of perfect and imperfect markets.

- Define a perfect market: Characteristics include many buyers and sellers, homogeneous products, perfect information, and ease of entry and exit.
- Define an imperfect market: Features include fewer buyers and sellers, product differentiation, and barriers to entry.
- Use examples related to agriculture to clarify these concepts, such as comparing a regional grain market (imperfect) versus a commodity market for a staple crop (perfect).
- Organize students into small groups to discuss and come up with examples of each type of market in real-world scenarios, sharing their findings with the class.

Resources used:

- KLB BK IV Pg 164
- Longhorn BK 4 Pg 137
- Additional relevant reference materials (if any)

List of learning activities:

- Group discussions
- Student presentations on market types

Conclusion (5 minutes):

Recap the key points covered in the lesson: the definition of a market, characteristics of perfect and imperfect markets, and their relevance to agriculture. Emphasize the importance of understanding market structures for making informed agricultural decisions. Prepare students for the next lesson by hinting at discussing how these market types affect pricing and agricultural policies.

List the resources used:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

List of learning activities:

- Summary discussion
- Question/Answer session to clarify any doubts

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____

SCHOOL/INSTITUTION: _____

FORM: 4

TERM: 3

SUBJECT: AGRICULTURE

TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS

SUB TOPIC: TYPES OF MARKETS. MONOPOLY. OLIGOPOLY & MONOPSONY.

WEEK: _____ **LESSON NO:** _____

DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

- Identify features of monopolistic, oligopolistic, and monopsonistic markets.

LESSON PRESENTATION

Introduction (5 minutes):

- Greet the students warmly.
- Introduce the topic of markets by explaining its significance in agricultural economics and how it affects market dynamics.
- Pose a provocative question: "What would happen if only one supplier dominated a market?"
- Transition into the topic by stating that today's lesson will focus on the types of markets - Monopoly, Oligopoly, and Monopsony.

Resources:

- Chalk board/whiteboard
- A piece of chalk/marker pen
- Textbooks KLB BK IV Pg 165-6 & Longhorn BK 4 Pg 137-8

Learning Activities:

- Brainstorming session.

Lesson Content (30 minutes):

1. Monopoly (10 minutes)

- Define monopoly and explain its key features including single seller, price maker, and barriers to entry for other firms.
- Discuss real-world examples, possibly from agricultural sectors (e.g., a local supplier for a specific product).

2. Oligopoly (10 minutes)

- Define oligopoly and outline its features such as few sellers, interdependence, and product differentiation.

- Encourage students to think of examples in agricultural markets, such as seed companies or meat-packing industries.

3. Monopsony (10 minutes)

- Define monopsony and examine its characteristics including single buyer, market power over suppliers, and few alternative markets for sellers.
 - Discuss agricultural scenarios where a large retailer might dominate purchasing power over farmers.
- Incorporate a group discussion after each market type to encourage students to share their own examples and thoughts.

Resources:

- Textbooks KLB BK IV Pg 165-6 & Longhorn BK 4 Pg 137-8

Learning Activities:

- Exposition on definitions and features.
- Group discussions on provided examples.

Conclusion (5 minutes):

- Summarize by revisiting key definitions and characteristics of monopoly, oligopoly, and monopsony.
- Highlight the importance of understanding these markets in relation to agricultural marketing and potential impact on farmers and consumers.
- Prepare the students for the next lesson by hinting that they will explore the effects of these market types on pricing and competition.

Resources:

- Chalk board/whiteboard
- A piece of chalk/marker pen
- Textbooks KLB BK IV Pg 165-6 & Longhorn BK 4 Pg 137-8

Learning Activities:

- Recap and closing discussion.

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____
SCHOOL/INSTITUTION: _____
FORM: 4
TERM: 3
SUBJECT: AGRICULTURE
TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS
SUB TOPIC: PRICE THEORY AND DEMAND.
WEEK: _____ **LESSON NO:** _____
DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

1. Define the terms price and demand.
2. Sketch the demand curve.
3. Explain the term demand schedule.

LESSON PRESENTATION

Introduction (5 minutes):

- Greet the students and introduce the topic of Price Theory and Demand.
- Explain the importance of understanding price and demand in agricultural marketing.
- Outline the lesson objectives to give students a clear idea of what will be covered.

Resources:

- Chalkboard/whiteboard
- A piece of chalk/marker pen
- Textbook (KLB BK IV Pg 166-168, Longhorn Bk 4 Pg 139-140)

Learning Activities:

- Class discussion
- Quick Q&A

Lesson Content (30 minutes):

Define Price and Demand (10 minutes):

- Discuss the definition of price as the amount of money required to purchase a good or service.
- Define demand as the quantity of a good or service that consumers are willing and able to purchase at various prices.
- Encourage students to provide examples of price and demand.

Demand Curve (10 minutes):

- Explain the concept of the demand curve as a graphical representation of the relationship between the price of a good and the quantity demanded.

- Sketch a simple linear demand curve on the board, labeling the axes: Price on the vertical and Quantity on the horizontal.
- Illustrate how a change in price causes movement along the demand curve (law of demand).

Demand Schedule (10 minutes):

- Explain the term demand schedule as a table that lists the quantity of a good demanded at different price levels.
- Provide an example of a demand schedule and discuss how it can be derived from the demand curve.
- Engage students in a brief activity where they create a sample demand schedule based on a fictional product.

Resources:

- KLB BK IV Pg 166-168
- Longhorn Bk 4 Pg 139-140
- Chalkboard/whiteboard

Learning Activities:

- Group discussions
- Curve sketching exercise
- Creation of demand schedules

Conclusion (5 minutes):

- Summarize the key points discussed: the definitions of price and demand, the demand curve, and the demand schedule.
- Emphasize the importance of understanding these concepts in the context of agricultural marketing.
- Prepare students by mentioning that the next lesson will build on these concepts.

Resources:

- Chalkboard/whiteboard
- A piece of chalk/marker pen
- Textbook (KLB BK IV Pg 166-168, Longhorn Bk 4 Pg 139-140)

Learning Activities:

- Recap discussion
- Questions and answers

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____
SCHOOL/INSTITUTION: _____
FORM: 4
TERM: 3
SUBJECT: AGRICULTURE
TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS
SUB TOPIC: PRICE THEORY AND DEMAND.
WEEK: _____ **LESSON NO:** _____
DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

1. Define the terms price and demand.
2. Sketch the demand curve.
3. Explain the term demand schedule.

LESSON PRESENTATION

Introduction (5 minutes):

- Greet the students and introduce the topic of price theory and demand.
- Explain the importance of understanding price and demand in agricultural marketing.

List the resources used:

- Chalk board/whiteboard
- A piece of chalk/marker pen
- Textbook

List of learning activities:

- Exposition on price and demand
- Curve sketching
- Explanation of demand schedule

Resources:

- Chalk board/whiteboard
- A piece of chalk/marker pen
- KLB BK IV Pg 166-8
- Longhorn Bk 4 Pg 139-140

Learning Activities:

- Teacher-led discussion
- Individual sketching of demand curves
- Pair-sharing for demand schedule explanations

Lesson Content (30 minutes):*1. Definition of Price and Demand (10 minutes)*

- Define 'price' as the amount of money required to purchase a product.
- Define 'demand' as the quantity of a product that consumers are willing and able to purchase at various prices.
- Ask students to provide their understanding of these terms and correct misconceptions if any.

2. Sketching the Demand Curve (10 minutes)

- Explain that the demand curve is a graphical representation of the relationship between price and quantity demanded.
- Use the chalkboard to demonstrate how to plot a demand curve using sample data.
- Ask students to sketch a demand curve in their notebooks based on the example provided.

3. Understanding Demand Schedule (10 minutes)

- Define 'demand schedule' as a table that lists the quantity of a good that consumers will purchase at different price levels.
- Discuss how demand schedules can be converted into demand curves.
- Show an example of a demand schedule on the chalkboard and guide students to create their own based on a hypothetical product.

Resources:

- KLB BK IV Pg 166-8
- Longhorn Bk 4 Pg 139-140

Learning Activities:

- Discussions on definitions
- Curve sketching in notebooks
- Creating demand schedules

Conclusion (5 minutes):

- Summarize the key points: definitions of price and demand, the significance of the demand curve, and the concept of a demand schedule.
- Emphasize the importance of these concepts in understanding agricultural markets.
- Prepare students for the next lesson by highlighting that they will be exploring the factors that influence demand.

Resources used:

- Chalk board/whiteboard
- A piece of chalk/marker pen
- Textbook

List of learning activities:

- Summary of key points

- Preparation for the next lesson

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____
SCHOOL/INSTITUTION: _____
FORM: 4
TERM: 3
SUBJECT: AGRICULTURE
TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS
SUB TOPIC: FACTORS AFFECTING DEMAND FOR A COMMODITY.
WEEK: _____ **LESSON NO:** _____
DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

- Outline factors affecting demand for a commodity.

LESSON PRESENTATION

Introduction (5 minutes):

Begin the lesson by greeting the students and engaging them with a brief question about any recent experience they have had with buying goods. Introduce the topic of demand and how various factors influence it. Explain the significance of understanding these factors in the context of agricultural marketing.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook (KLB BK IV Pg 168-9, Longhorn Bk 4 Pg 140-2)

Learning Activities:

- Question and Answer session
- Discussion about personal buying experiences

Lesson Content (30 minutes):

Introduce the key factors affecting demand for a commodity, including:

1. Price of the commodity: Explain the law of demand and how price changes typically affect consumer purchasing behavior.
2. Consumer income: Discuss how changes in income level influence demand.
3. Tastes and preferences: Explore how consumer preferences can shift demand for certain commodities.
4. Prices of related goods: Explain the impact of substitute and complementary goods on demand.
5. Consumer expectations: Discuss how expectations for future prices can affect current demand.
6. Population and demographics: Illustrate how changes in population size and demographics can influence demand.

Engage students in a group discussion where they can brainstorm additional factors that affect demand. Encourage them to provide examples from their own experiences, particularly in agriculture. Facilitate hands-on activities such as analyzing case studies from the textbooks, where students can identify the factors at play in a given scenario.

Resources:

- Textbook (KLB BK IV Pg 168-9, Longhorn Bk 4 Pg 140-2)
- Handouts or printed case studies

Learning Activities:

- Group discussions
- Analysis of case studies
- Interactive brainstorming session

Conclusion (5 minutes):

Summarize the key points discussed in the lesson, reiterating the factors affecting demand for a commodity and emphasizing their relevance in agricultural marketing. Prepare students for the next lesson by giving them a preview of how these concepts will apply to supply and pricing in agriculture.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

Learning Activities:

- Recap discussion
- Question and Answer session to clarify understanding

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____
SCHOOL/INSTITUTION: _____
FORM: 4
TERM: 3
SUBJECT: AGRICULTURE
TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS
SUB TOPIC: ELASTICITY OF DEMAND.
WEEK: _____ **LESSON NO:** _____
DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

1. Explain the concept of elasticity of demand.
2. Illustrate demand for a commodity.
3. Calculate elasticity of demand.
4. Identify types of elasticity of demand.
5. Illustrate elastic, inelastic & unitary demand graphically.

LESSON PRESENTATION

Introduction (5 minutes):

- Greet the students and introduce the topic "Elasticity of Demand", explaining its importance in understanding consumer behavior and market dynamics.
- Pose a question to stimulate interest, such as "Why do you think prices change?"
- End this section by listing the resources used:
- Chalk board/white board
- A piece of chalk/ marker pen
- Textbooks: KLB BK IV Pg 170-173, Longhorn BK 4 Pg 142-144

Resources:

- Chalk board/white board
- A piece of chalk/ marker pen
- Textbooks: KLB BK IV Pg 170-173, Longhorn BK 4 Pg 142-144

Learning Activities:

- Teacher's explanations
- Question and answer discussion

Lesson Content (30 minutes):

- Begin with a definition of elasticity of demand: "Elasticity of demand refers to the responsiveness of quantity demanded to a change in price."
- Discuss the significance of elasticity in market analysis and pricing strategies.

- Introduce the demand curve and explain how it represents the relationship between quantity demanded and price.
- Graphical Illustration: Illustrate elastic, inelastic, and unitary demand using demand curves, highlighting their characteristics.
- Elastic Demand: Demand is responsive to price changes (e.g., luxury items).
- Inelastic Demand: Demand is not very responsive to price changes (e.g., necessities).
- Unitary Demand: Demand changes proportionately with price changes.
- Calculation of Elasticity of Demand:
- Teach the formula:
- Provide a worked example and guide students through calculating elasticity.
- Engage students in a supervised practice where they calculate elasticity from given scenarios.

Resources:

- KLB BK IV Pg 170-173
- Longhorn BK 4 Pg 142-144
- Calculators (if available)

Learning Activities:

- Teacher-led discussion
- Graphical illustration of demand curves
- Worked examples
- Supervised practice on calculating elasticity

Conclusion (5 minutes):

- Summarize the key points covered regarding the concept and types of elasticity of demand, including how to calculate it.
- Remind learners of the real-world applications of understanding price elasticity in market strategies.
- Prepare students for the next lesson by indicating that the next topic will focus more on supply-side concepts.

Resources:

- Chalk board/white board
- A piece of chalk/ marker pen
- Textbooks: KLB BK IV Pg 170-173, Longhorn BK 4 Pg 142-144

Learning Activities:

- Recap of lesson points
- Preparing for the next topic

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____

SCHOOL/INSTITUTION: _____

FORM: 4

TERM: 3

SUBJECT: AGRICULTURE

TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS

SUB TOPIC: FACTORS AFFECTING ELASTICITY OF DEMAND.

WEEK: _____ **LESSON NO:** _____

DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

- State factors affecting elasticity of demand.

LESSON PRESENTATION

Introduction (5 minutes):

Begin the lesson with a warm greeting to engage students. Introduce the topic of elasticity of demand, explaining its relevance in agricultural marketing. Highlight that understanding elasticity helps in making better pricing and production decisions in agriculture. Finish this section by listing the resources used and the learning activities planned.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook (KLB BK IV Pg 173-174)

Learning Activities:

- Exposition
- Explanations

Lesson Content (30 minutes):

Discuss the topic in detail, covering the various factors that affect elasticity of demand such as:

1. Availability of Substitutes: Explain how having alternative products increases elasticity.
2. Proportion of Income Spent: Discuss how items that take a larger portion of income have more elastic demand.
3. Necessity vs. Luxury: Distinguish between necessities (inelastic) and luxuries (elastic) in demand.
4. Time Period: Cover how the elasticity of demand may vary in short- and long-term scenarios.
5. Brand Loyalty: Illustrate how customer loyalty can make demand inelastic for certain products.

Engage students in group discussions where they can identify real-life examples of these factors in agricultural products. Encourage them to think critically and share their ideas.

Resources:

- KLB BK IV Pg 173-174
- Chalk board/white board
- Supplementary materials (newspaper articles, market reports)

Learning Activities:

- Group discussions
- Case study analysis

Conclusion (5 minutes):

Reiterate the key points discussed regarding the factors affecting elasticity of demand. Highlight the importance of recognizing these factors in making effective marketing decisions in agriculture. Prepare students for the next lesson by giving them a brief overview of related topics they will be studying next.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

Learning Activities:

- Summary discussion
- Q&A session

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____

SCHOOL/INSTITUTION: _____

FORM: 4

TERM: 3

SUBJECT: AGRICULTURE

TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS

SUB TOPIC: SUPPLY & SUPPLY-PRICE RELATIONSHIP.

WEEK: _____ **LESSON NO:** _____

DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

1. Define the term supply.
2. Illustrate the supply-price relationship.

LESSON PRESENTATION

Introduction (5 minutes):

- Greet the students and introduce the lesson topic "Supply & Supply-Price Relationship."
- Briefly explain the importance of understanding supply in agricultural marketing and how it affects pricing.
- Engage students by asking if they have heard about supply and its importance in their daily lives.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- KLB BK IV Pg 174-175
- Longhorn Bk 4 Pg 144-145

Learning Activities:

- Class discussion
- Brainstorming what supply means to them

Lesson Content (30 minutes):

- Begin with a definition of 'supply' as the quantity of a product that producers are willing and able to sell at various prices over a given time period.
- Discuss factors affecting supply, including production costs, technology, and government policies.
- Introduce the concept of the supply-price relationship, illustrating how supply varies with price changes, emphasizing the law of supply (as price increases, the quantity supplied increases).

- Use the chalkboard to sketch supply curves, showing that higher prices typically lead to higher quantities supplied.
- Distribute reference materials (KLB BK IV and Longhorn BK) for students to analyze supply schedules, reinforcing the relationship between price and supply.
- Conduct a group discussion where students can share their insights from the reference materials, relating supply-price dynamics to real-world agricultural scenarios.

Resources:

- KLB BK IV Pg 174-175
- Longhorn Bk 4 Pg 144-145
- Charts for sketching

Learning Activities:

- Definitions and discussion
- Sketching supply-price curves
- Analyzing supply schedules
- Group discussion on real-life applications

Conclusion (5 minutes):

- Summarize the key points discussed, reiterating the definition of supply and the importance of the supply-price relationship.
- Emphasize that understanding these concepts helps in making informed decisions in agricultural marketing.
- Prepare the students for the next lesson by hinting at more complex concepts in agricultural economics that build on supply and price.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- KLB BK IV Pg 174-175
- Longhorn Bk 4 Pg 144-145

Learning Activities:

- Key point summary
- Group reflections on the concepts learned

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____

SCHOOL/INSTITUTION: _____

FORM: 4

TERM: 3

SUBJECT: AGRICULTURE

TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS

SUB TOPIC: FACTORS AFFECTING SUPPLY OF A COMMODITY.

WEEK: _____ **LESSON NO:** _____

DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

- State and explain factors affecting the supply of a commodity.

LESSON PRESENTATION

Introduction (5 minutes):

Begin with a warm greeting to engage students. Introduce the lesson on the factors affecting supply of a commodity, highlighting its relevance in agricultural economics and market dynamics. Pose a question to spark initial interest: "What do you think influences the availability of crops in our markets?"

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

Learning Activities:

- Question and Answer (Q/A) session to gauge prior knowledge.

Lesson Content (30 minutes):

Discuss the various factors that affect the supply of a commodity. Key areas to cover include:

1. Price of the Commodity: Explain how an increase in price typically leads to an increase in supply.
2. Cost of Production: Discussion on how higher production costs can reduce supply.
3. Technology: Explore how advancements in agricultural technology can enhance supply.
4. Number of Suppliers: Discuss how the entry or exit of suppliers in the market affects supply levels.
5. Government Policies: Examine how subsidies, regulations, and tariffs can influence supply.
6. Weather Conditions: Explain the impact of climate on agricultural output.

Encourage group discussions where students can brainstorm on each factor and provide examples from local commodities. Allow each group to present their findings.

Resources:

- KLB BK IV Pg 175-177
- Longhorn BK 4 Pg 145-146

Learning Activities:

- Group discussions
- Presentations from each group
- Q/A to solidify understanding

Conclusion (5 minutes):

Summarize the key factors discussed, emphasizing how each factor interlinks with the supply chain of agricultural products. Highlight the importance of understanding supply factors for effective agricultural marketing strategies. Prepare students for the next lesson, which will further explore demand factors and their interaction with supply.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

Learning Activities:

- Recap session
- Q/A to clarify any outstanding queries

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____

SCHOOL/INSTITUTION: _____

FORM: 4

TERM: 3

SUBJECT: AGRICULTURE

TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS

SUB TOPIC: FACTORS AFFECTING SUPPLY OF A COMMODITY.

WEEK: _____ **LESSON NO:** _____

DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

1. State the factors affecting the supply of a commodity.
2. Explain each factor's influence on the supply of commodities.

LESSON PRESENTATION

Introduction (5 minutes):

- Greet the students and create a welcoming classroom atmosphere.
- Introduce the topic of factors affecting supply by asking students what they understand about supply in the context of agriculture.
- Mention how the supply of a commodity can change due to various factors.

Resources:

- Chalkboard/whiteboard
- A piece of chalk/marker pen
- Textbooks (KLB BK IV Pg 175-7; Longhorn Bk 4 Pg 145-6)

Learning Activities:

- Question/Answer (Q/A) session
- Detailed class discussion

Lesson Content (30 minutes):

- Begin with an overview of the concept of supply in the agricultural market.
- Discuss the following key factors affecting the supply of a commodity:
 1. Price of the commodity
 2. Costs of production (labor, equipment, etc.)
 3. Technology and innovation in farming
 4. Government policies and regulations
 5. Seasonal variations and climatic conditions
 6. Availability of resources (inputs like seeds and fertilizers)
 7. Market competition

- Facilitate a group discussion where students can share their thoughts on how each factor can positively or negatively impact the supply of agricultural products.
- Encourage students to give real-world examples related to local agricultural products to enhance understanding.
- Summarize each factor as students share their insights, providing clarity and further explanation where needed.

Resources:

- KLB BK IV Pg 175-7
- Longhorn Bk 4 Pg 145-6

Learning Activities:

- Group discussions
- Real-world application examples
- Summarizing activities

Conclusion (5 minutes):

- Summarize the key points covered during the lesson concerning the factors affecting supply of a commodity.
- Reiterate the importance of understanding these factors for making informed decisions in agricultural marketing.
- Prepare students for the next lesson by hinting at how demand interacts with supply.
- List the resources used and learning activities conducted.

Resources:

- Chalkboard/whiteboard
- A piece of chalk/marker pen
- Textbooks (KLB BK IV Pg 175-7; Longhorn Bk 4 Pg 145-6)

Learning Activities:

- Summary of key points
- Brief Q/A session to clarify any remaining questions

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____
SCHOOL/INSTITUTION: _____
FORM: 4
TERM: 3
SUBJECT: AGRICULTURE
TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS
SUB TOPIC: ELASTICITY OF SUPPLY (ES).
WEEK: _____ **LESSON NO:** _____
DATE: _____ **TIME:** _____

Objectives:

By the end of the lesson, the learner should be able to:

1. Define elasticity of supply (Es).
2. Calculate (Es).

LESSON PRESENTATION

Introduction (5 minutes):

- Greet the students and create a welcoming learning environment.
- Briefly introduce the concept of elasticity of supply, explaining its importance in agriculture and markets.
- State the lesson objectives clearly to provide students with a roadmap of what they will learn today.

Resources:

- Chalkboard/Whiteboard
- A piece of chalk/Marker pen
- KLB BK IV Pg 177-178
- Longhorn Bk 4 Pg 147

Learning Activities:

- Question and Answer session
- Review definitions of elasticity of supply
- Class discussions

Lesson Content (30 minutes):

Definition of Elasticity of Supply (Es):

1. Explain the concept of elasticity of supply, highlighting how it measures the responsiveness of quantity supplied to a change in price.
2. Discuss the formula for calculating elasticity of supply (Es), which is $Es = (\% \text{ Change in Quantity Supplied}) / (\% \text{ Change in Price})$.

Factors Influencing Elasticity of Supply:

1. Discuss how factors such as production time, availability of resources, and time period influence the elasticity of supply.

Worked Examples:

1. Provide worked examples to demonstrate how to calculate elasticity of supply using real-world scenarios.

2. Engage students in group work where they can calculate the elasticity of supply using sample data provided in their textbooks.

Supervised Activity:

1. Distribute a worksheet that contains problems related to elasticity of supply for students to solve in class.

2. Walk around to offer guidance as students work through the problems.

Resources:

- KLB BK IV Pg 177-178
- Longhorn Bk 4 Pg 147
- Practice Worksheets

Learning Activities:

- Group discussions
- Worked examples
- Problem-solving activities

Conclusion (5 minutes):

- Summarize the key points covered in the lesson, focusing on the definition of elasticity of supply and its calculation.
- Highlight the significance of understanding elasticity in agriculture markets and its implications on supply decisions.
- Prepare students for the next lesson by giving a brief indication of what they will learn about next (e.g., factors that affect supply).

Resources:

- Chalkboard/Whiteboard
- A piece of chalk/Marker pen
- KLB BK IV Pg 177-178
- Longhorn Bk 4 Pg 147

Learning Activities:

- Summary discussions
- Review of key takeaways

Teacher Self-Evaluation:

Objectives:

By the end of the lesson, the learner should be able to:

1. Explain how market prices are determined.
2. Determine the equilibrium or market prices of a commodity in a free market.

LESSON PRESENTATION

Introduction (5 minutes):

Begin the lesson with a warm greeting to create a positive learning environment. Introduce the topic of 'Determination of Market Prices' by explaining its significance in agriculture and how it affects farmers, consumers, and the economy.

List the resources used:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbooks

List of learning activities:

- Teacher's explanation
- Q/A session
- Review of demand and supply curves

Lesson Content (30 minutes):

1. Discussion on Market Prices (10 minutes):

- Define what market prices are and explain the role of supply and demand in determining these prices.
- Discuss factors affecting demand (consumer preference, income, and substitutes) and supply (production costs, technology, and number of sellers).
- Use KLB BK IV Pg 178-9 and Longhorn BK 4 Pg 149 as reference materials for deeper insights and examples.

2. Determine Equilibrium Price (10 minutes):

- Introduce the concept of equilibrium price—the price at which the quantity demanded equals the quantity supplied.

- Explain how shifts in either the demand curve or the supply curve affect market prices.

3. Graphical Representation (10 minutes):

- Instruct students to plot the demand and supply curves on the board or on graph paper.
- Guide them to identify the point of intersection, which signifies the equilibrium price.
- Discuss the importance of interpreting these graphs in real-world scenarios.

Conclude this section with a list of the resources used:

- KLB BK IV Pg 178-9
- Longhorn BK 4 Pg 149

List of the learning activities conducted:

- Teacher's explanation
- group plotting of demand and supply curves
- Interpretation of graphs

Conclusion (5 minutes):

Summarize the key concepts discussed in the lesson by reiterating the importance of understanding market prices and the factors that influence them. Emphasize the relationship between supply, demand, and equilibrium price and how it impacts agricultural marketing. Prepare students for the next lesson by introducing the next topic briefly.

List the resources used:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbooks

List of learning activities:

- Summary of lesson points
- Prepare for the next topic discussion

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____
SCHOOL/INSTITUTION: _____
FORM: 4
TERM: 3
SUBJECT: AGRICULTURE
TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS
SUB TOPIC: PRICE CONTROL. MARKETING AND MARKETING FUNCTION.
WEEK: _____ **LESSON NO:** _____
DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

1. Explain the role of government in price control.
2. Define marketing and marketing function.
3. Describe the functions of a market.

LESSON PRESENTATION

Introduction (5 minutes):

Begin the lesson by greeting the students and introducing the topic of price control and marketing. Briefly explain why understanding these concepts is key in agriculture and the economy at large. Set the tone for active participation throughout the lesson.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

Learning Activities:

- Brainstorming session to elicit prior knowledge from students.

Lesson Content (30 minutes):

1. Pricing Control (15 minutes):

- Discuss the concept of price control, including definitions and types (e.g., price ceilings and price floors).
- Explain the role of government in price control, highlighting reasons such as market failure, protecting consumers, and ensuring fair competition.
- In pairs, have students brainstorm examples of products affected by price controls in the local economy and share with the class.

2. Marketing and Marketing Functions (15 minutes):

- Define marketing using examples relevant to agriculture (such as selling produce). Discuss its importance in the agricultural sector.

- Explain various marketing functions, such as buying, selling, transportation, storage, and market information.
- Conduct a discussion by asking students how they can identify marketing functions in their local agricultural markets. Encourage them to provide examples.

Conclude this section by summarizing the main points discussed, reinforcing definitions, and emphasizing the importance of government in price control and marketing's role in agriculture.

Resources:

- KLB BK IV Pg 179-183
- Longhorn BK 4 Pg 151
- Additional reference materials, if available.

Learning Activities:

- Group discussions
- Hands-on brainstorming sessions
- Partnered sharing of examples

Conclusion (5 minutes):

Summarize key points, reiterating the role of government in price controls, the definition of marketing, and the functions of a market. Highlight how these concepts will be built upon in future lessons, particularly in relation to agricultural economies. Encourage students to think about how price control and marketing can impact their farming practices or understanding of the market.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

Learning Activities:

- Recap discussion
- Q&A session

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____

SCHOOL/INSTITUTION: _____

FORM: 4

TERM: 3

SUBJECT: AGRICULTURE

TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS

SUB TOPIC: MARKETING ORGANIZATIONS AND AGENCIES. WHOLESALERS & RETAILERS.

WEEK: _____ **LESSON NO:** _____

DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

1. Explain the arbitrage role of a wholesaler.
2. Identify services provided by retailers.

LESSON PRESENTATION

Introduction (5 minutes):

Begin the lesson with a friendly greeting to create a welcoming environment. Introduce the topic of marketing organizations and agencies, highlighting the focus on wholesalers and retailers.

Pose a thought-provoking question to engage students, such as "What role do you think wholesalers play in the supply chain of agricultural products?"

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook (KLB BK IV Pg 183-4; Longhorn Bk 4 Pg 151)

Learning Activities:

- Brainstorming

Lesson Content (30 minutes):

1. Discussion on Wholesalers (15 minutes)

- Begin by explaining the arbitrage role of wholesalers in the supply chain, discussing how they purchase goods in large quantities from producers and sell them in smaller quantities to retailers.
- Conduct a group discussion where students can share their insights or experiences related to wholesalers in agricultural marketing.

2. Retailer Services (15 minutes)

- Transition to discussing retailers, highlighting the various services they provide such as product display, consumer advice, credit facilities, and after-sales services.

- Organize students into pairs to discuss and list specific services they believe retailers provide in the agricultural sector.

Conclude this section by bringing the classroom back to a collective discussion where groups can share their findings. Reinforce the importance of both wholesalers and retailers in the marketing process.

Resources:

- KLB BK IV Pg 183-4
- Longhorn Bk 4 Pg 151
- Chalk board/white board
- Textbook

Learning Activities:

- Exposition
- Group Discussion
- Pair Work

Conclusion (5 minutes):

Summarize the key points by reiterating the roles of wholesalers as arbitrage agents and the services offered by retailers. Encourage students to think about the implications of these roles in the broader agricultural market. Prepare students for the next lesson by hinting at upcoming topics related to consumer behavior and market analysis.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

Learning Activities:

- Discussion
- Summary

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____

SCHOOL/INSTITUTION: _____

FORM: 4

TERM: 3

SUBJECT: AGRICULTURE

TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS

SUB TOPIC: ITINERANT TRADERS, BROKER AGENTS & COMMISSION AGENTS.

WEEK: _____ **LESSON NO:** _____

DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to outline the functions of itinerant traders, broker agents, and commission agents in a market.

LESSON PRESENTATION

Introduction (5 minutes):

- Greet the students and introduce the topic of itinerant traders, broker agents, and commission agents as vital components in agricultural marketing.
- Explain how these agents facilitate the buying and selling processes and help farmers reach their markets.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook (KLB BK IV pg 184-5)

Learning Activities:

- Exposition
- Explanation

Lesson Content (30 minutes):

- Start by explaining the definitions of itinerant traders, broker agents, and commission agents.
- Itinerant Traders: Individuals who travel to trade goods, often working in specific regions and moving from one market to another.
- Broker Agents: Intermediaries who facilitate transactions between buyers and sellers, typically charging a commission for their services without taking ownership of the goods.
- Commission Agents: Agents who sell goods on behalf of the producer or supplier and earn a commission based on the sales achieved.

Discuss the functions of these agents in the market:

1. Market Facilitation: Helping farmers reach buyers and improving market access.
2. Price Discovery: Assisting in setting market prices through negotiation and understanding local demand.

3. Risk Mitigation: Providing a safety net for farmers by managing risks such as price fluctuations and unsold inventory.

- Include group discussions where students can reflect on the advantages and disadvantages of using these agents, encouraging peer-to-peer learning.
- Conclude this section with an exploration of how technology is changing the role of these agents in modern agricultural markets (e.g., online trading platforms).

Resources:

- KLB BK IV pg 184-5
- Chalk board/white board
- Textbook

Learning Activities:

- Exposition
- Explanation
- Group discussions

Conclusion (5 minutes):

- Summarize key points about the roles and functions of itinerant traders, broker agents, and commission agents.
- Emphasize the importance of understanding market mechanisms and their impact on agricultural success.
- Prepare the students for the next lesson by hinting at exploring the impact of international trade on local markets.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

Learning Activities:

- Summary discussion
- Question and answer session

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____

SCHOOL/INSTITUTION: _____

FORM: 4

TERM: 3

SUBJECT: AGRICULTURE

TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS

SUB TOPIC: PACKERS AND PROCESSORS, MARKETING BOARDS & AUCTIONEERS.

WEEK: _____ **LESSON NO:** _____

DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

- Outline the functions of packers and processors.
- Describe the roles of marketing boards in agricultural marketing.
- Explain the significance of auctioneers in the agricultural market.

LESSON PRESENTATION

Introduction (5 minutes):

- Greet the students warmly and introduce the topic of agricultural marketing organizations.
- Highlight the importance of packers, processors, marketing boards, and auctioneers in the agricultural sector.
- Conclude by letting students know they will learn the functions of each of these roles today.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook (KLB BK IV Pg 185-186)

Learning Activities:

- Question and answer interaction.
- Introduction to a detailed class discussion.

Lesson Content (30 minutes):

1. Packers and Processors (10 minutes):

- Discuss the role of packers in preparing agricultural products for market.
- Explain the processing function, including value addition and preservation techniques.
- Key Activity: Group discussion on local examples of packers and processors and their impact on food quality and availability.

2. Marketing Boards (10 minutes):

- Define marketing boards and their purpose in stabilizing agricultural prices.

- Discuss how marketing boards help farmers achieve better market access and pricing for their products.
- Key Activity: Students will share experiences or knowledge on marketing boards relevant to their local communities.

3. Auctioneers (10 minutes):

- Explain the function of auctioneers in facilitating sales of agricultural products.
- Discuss the role of auctioneers in ensuring fair pricing and competition among buyers.
- Key Activity: Class brainstorming session on how auctioneering practices can influence market trends.

Resources:

- KLB BK IV Pg 185-186 (Textbook)
- Supplementary materials as needed (e.g., articles, case studies)

Learning Activities:

- Group discussions
- Class brainstorming sessions
- Question and answer follow-up

Conclusion (5 minutes):

- Review the key points discussed: functions of packers and processors, roles of marketing boards, and importance of auctioneers in agricultural marketing.
- Highlight important takeaways regarding how these organizations contribute to the efficiency and effectiveness of the agricultural sector.
- Prepare students for the next lesson, which will delve deeper into marketing strategies within agricultural organizations.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook (KLB BK IV Pg 185-186)

Learning Activities:

- Summary of key points
- Open floor for any final questions or comments

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____

SCHOOL/INSTITUTION: _____

FORM: 4

TERM: 3

SUBJECT: AGRICULTURE

TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS

SUB TOPIC: PACKERS AND PROCESSORS, MARKETING BOARDS & AUCTIONEERS.

WEEK: _____ **LESSON NO:** _____

DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

- Outline functions of packers and processors, marketing boards & auctioneers in a market.

LESSON PRESENTATION

Introduction (5 minutes):

- Begin with a warm greeting to the students.
- Introduce the topic of Packers and Processors, Marketing Boards, and Auctioneers by relating it to real-life examples in agriculture.
- State the lesson objectives clearly.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

Learning Activities:

- Question and Answer session
- Brief discussion on students' prior knowledge of the topic

Lesson Content (30 minutes):

- Define packers and processors: Discuss their roles in preparing and packaging agricultural products for sale. Highlight aspects such as quality control, branding, and supply chain management.
- Explain marketing boards: Outline their functions, including price stabilization, quality assurance, and supporting farmers through market access. Discuss their importance in agricultural economies.
- Discuss auctioneers: Describe their role in facilitating the sale of agricultural products, focusing on the auction process and how it benefits both buyers and sellers.
- Group Activity: Organize the students into small groups to discuss one function of either a packer, processor, marketing board, or auctioneer and present their thoughts to the class.

- Encourage questions and facilitate a detailed discussion about how these entities interrelate within the agricultural market.

Resources:

- KLB BK IV Pg 185-6
- Supplementary reading materials
- Chalk board/white board

Learning Activities:

- Group discussions
- Student presentations
- Q/A session

Conclusion (5 minutes):

- Summarize the key functions of packers and processors, marketing boards, and auctioneers discussed in the lesson.
- Highlight the importance of these entities in the agricultural market and the economy as a whole.
- Provide a brief preview of what will be covered in the next lesson, linking it to the current topic.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

Learning Activities:

- Summary by students
- Interactive recap of key points

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____
SCHOOL/INSTITUTION: _____
FORM: 4
TERM: 3
SUBJECT: AGRICULTURE
TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS
SUB TOPIC: SPECIAL CHARACTERISTICS OF AGRICULTURAL PRODUCTS.
WEEK: _____ **LESSON NO:** _____
DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

1. Describe bulkiness of agricultural products.
2. Explain the weight and volume characteristics of agricultural products.
3. Discuss seasonality in agricultural production.
4. Analyze the perishability of agricultural products.

LESSON PRESENTATION

Introduction (5 minutes):

- Begin with a warm greeting to the students.

Introduce the topic

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Student Book (KLB BK IV, Pg 186-188)

Learning Activities:

- Oral questions
- Detailed discussion

Lesson Content (30 minutes):

We will delve into the following special characteristics of agricultural products:

1. Bulkiness:

- Definition: Agricultural products often take up a large volume relative to their weight, which can affect storage and transportation.
- Discussion: How does bulkiness influence market prices and transportation logistics?

2. Weight:

- Explanation: Factors influencing the weight of products (e.g., moisture content, type of product).

- Activity: Weigh different agricultural products (if available) and discuss their weight in relation to their volume.

3. Volume:

- Exploration: The relationship between the volume of agricultural products and storage requirements.
- Group Discussion: Discuss effective storage strategies for various volumes of agricultural products.

4. Seasonality:

- Analysis: How the time of year affects the availability and price of agricultural products.
- Activity: Create a seasonal calendar for major agricultural products and discuss the implications for farmers and consumers.

5. Perishability:

- Discussion: Characteristics that contribute to the perishability of various products.
- Hands-on Experiment: Observe and discuss the shelf life of different products (fresh vs. processed).

Conclude this section by stressing how understanding these characteristics helps in making informed decisions in agricultural marketing and distribution.

Resources:

- Student Book (KLB BK IV Pg 186-188)
- Practical examples (products available for observation)

Learning Activities:

- Group discussions
- Hands-on experiments
- Seasonal calendar creation

Conclusion (5 minutes):

To wrap up, we have examined how bulkiness, weight, volume, seasonality, and perishability characterize agricultural products, and how this knowledge is essential for effective agricultural marketing. For our next lesson, be prepared to discuss strategies that can mitigate the effects of perishability.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Student Book (KLB BK IV Pg 186-188)

Learning Activities:

- Summary discussion
- Question and Answer

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____

SCHOOL/INSTITUTION: _____

FORM: 4

TERM: 3

SUBJECT: AGRICULTURE

TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS

SUB TOPIC: AGRICULTURAL ORGANIZATIONS. KENYA SUGAR AUTHORITY, HORTICULTURAL CROPS DEVELOPMENT AUTHORITY, AFC, ADC, AND KMC.

WEEK: _____ **LESSON NO:** _____

DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to outline the functions of the Kenya Sugar Authority, Horticultural Crops Development Authority, AFC, ADC, and KMC.

LESSON PRESENTATION

Introduction (5 minutes):

- Greet the students warmly and encourage them to participate actively.
- Introduce the topic of agricultural organizations, specifically focusing on the key authorities in Kenya.
- Mention the significance of these organizations in promoting agricultural productivity and marketing.

Resources:

- Chalk board/whiteboard
- A piece of chalk/marker pen
- Student textbook
- Reference materials (KLB BK IV Pg 189-192, Longhorn Bk 4 Pg 163-164)

Learning Activities:

- Probing questions
- Brief discussion

Lesson Content (30 minutes):

- Start with a brief overview of each of the five organizations: Kenya Sugar Authority (KSA), Horticultural Crops Development Authority (HCDA), Agricultural Finance Corporation (AFC), Agricultural Development Corporation (ADC), and Kenya Meat Commission (KMC).

1. Kenya Sugar Authority (KSA):

- Discuss its role in regulating the sugar industry, including licensing sugar producers, monitoring sugar production, and updating policies to enhance competitiveness.

2. Horticultural Crops Development Authority (HCDA):

- Explore its function in promoting the development of horticultural crops, ensuring quality standards, and providing training and resources to farmers.

3. Agricultural Finance Corporation (AFC):

- Explain its role in providing financial assistance, loans, and farm improvement resources to farmers and agricultural enterprises.

4. Agricultural Development Corporation (ADC):

- Describe its investment role in agricultural projects, supporting the cultivation of key crops, and providing essential agricultural services.

5. Kenya Meat Commission (KMC):

- Discuss its objectives in promoting meat production and marketing, ensuring meat quality standards, and enhancing the livelihood of livestock farmers.

- Use the whiteboard to summarize the key functions of these organizations as students contribute ideas from their reading and discussions.

Resources:

- KLB BK IV Pg 189-192
- Longhorn BK 4 Pg 163-164

Learning Activities:

- Group discussions
- Summarization on the whiteboard
- Active student participation through questions and answers

Conclusion (5 minutes):

- Recap the functions discussed and highlight the importance of these organizations in enhancing agricultural practices in Kenya.
- Encourage students to review the reading materials for detailed understanding and prepare them for the next lesson about the impact of these organizations on rural development and food security.

Resources:

- Chalk board/whiteboard
- A piece of chalk/marker pen
- Student textbook

Learning Activities:

- Q&A session
- Review of key points

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____

SCHOOL/INSTITUTION: _____

FORM: 4

TERM: 3

SUBJECT: AGRICULTURE

TOPIC: AGRICULTURAL MARKETING & ORGANIZATIONS

SUB TOPIC: OTHER FARMERS' ASSOCIATIONS: KNFU, ASK, 4K-CLUB, YF CLUB.

WEEK: _____ **LESSON NO:** _____

DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

- Outline the functions of other Farmers' Associations such as KNFU, ASK, 4K-club, YF club.

LESSON PRESENTATION

Introduction (5 minutes):

- Greet the students warmly to establish a positive classroom environment.
- Introduce the topic "Other Farmers' Associations" by highlighting the importance of collective farming organizations in enhancing farmers' productivity and market access.
- State the objectives of the lesson to guide students on what they are expected to learn.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

Learning Activities:

- Probing questions
- Brief discussion

Lesson Content (30 minutes):

Begin with a brief overview of each association:

- KNFU (Kenya National Farmers Union): Discuss its role in advocacy for farmers' rights, access to markets, and capacity building.
- ASK (Agricultural Society of Kenya): Explore its focus on promoting agriculture through exhibitions, agricultural shows, and linking farmers with research institutions for knowledge improvement.
- 4K Club: Explain the objectives of the club in empowering youth through practical agriculture education, encouraging teamwork, and promoting food security.
- YF Club (Young Farmers Club): Detail its focus on helping young farmers develop entrepreneurial skills in agriculture and the significance of mentorship from experienced farmers.

- Facilitate a brief discussion on how these organizations support farmers in their respective communities, and encourage students to share thoughts or experiences with similar associations.

Resources:

- KLB BK IV Pg 195-7
- Additional reference materials as appropriate

Learning Activities:

- Group discussions
- Question and answer session

Conclusion (5 minutes):

- Summarize the key points discussed, reinforcing the contributions of each farmers' association and their impact on the agricultural sector.
- Highlight the importance of joining such associations for collaboration, knowledge sharing, and improving farming practices.
- Prepare students for the next lesson by briefly mentioning the following topic to pique their interest.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

Learning Activities:

- Summary recap
- Prepare for next lesson discussion

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____

SCHOOL/INSTITUTION: _____

FORM: 4

TERM: 3

SUBJECT: AGRICULTURE

TOPIC: AGROFORESTRY

SUB TOPIC: DEFINITION OF AGROFORESTRY. FORMS OF AGROFORESTRY.

WEEK: _____ **LESSON NO:** _____

DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

1. Define the term agroforestry.
2. Describe forms of agroforestry.

LESSON PRESENTATION

Introduction (5 minutes):

Begin the lesson with a warm greeting to the students. Introduce the topic of agroforestry, its significance in sustainable agriculture, and its relevance to environmental conservation. Generate interest by asking a few questions such as: “What do you think happens when trees and crops grow together?” The goal is to initiate curiosity and engagement.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

Learning Activities:

- Q&A discussion to engage students

Lesson Content (30 minutes):

1. Definition of Agroforestry:

- Explain that agroforestry is a land-use management system in which trees and shrubs are grown around or among crops or pastureland. Discuss its benefits, such as improving biodiversity, soil health, and sustainability.
- Use probing questions like “Why do you think we should combine agriculture with forestry?” to facilitate understanding.

2. Forms of Agroforestry:

- Discuss various forms of agroforestry including:
 - a. Alley cropping
 - b. Silvopasture

c. Forest farming

d. Windbreaks

- Describe each form in detail, using specific examples to illustrate their practical applications in agriculture.

- Group Discussion: Organize students into small groups and assign each group a form of agroforestry to research further. They can present their findings to the class in the following lesson.

Resources:

- KLB BK IV Pg 200-201
- Longhorn BK 4 Pg 166-167
- Chalk board/white board
- A piece of chalk/marker pen

Learning Activities:

- Group discussions
- Research assignment
- Q&A sessions

Conclusion (5 minutes):

Summarize the key points covered in the lesson: the definition of agroforestry and its various forms. Reinforce the importance of this practice in promoting ecological balance and sustainable agricultural practices. Provide a brief overview of what will be covered in the next lesson, encouraging students to think about how agroforestry can impact local farming practices.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

Learning Activities:

- Summarization
- Brief instructor-led discussion on the next lesson topic

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____
SCHOOL/INSTITUTION: _____
FORM: 4
TERM: 3
SUBJECT: AGRICULTURE
TOPIC: AGRO FORESTRY
SUB TOPIC: IMPORTANCE OF AGROFORESTRY.
WEEK: _____ **LESSON NO:** _____
DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

- Explain the importance of agroforestry.

LESSON PRESENTATION

Introduction (5 minutes):

- Greet the students and introduce the topic of agroforestry by asking if anyone knows what it entails.
- Explain the relevance of agroforestry to sustainable agriculture and its impact on the environment and community.

List of resources used:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

List of learning activities:

- Group discussion
- Question and answer session

Lesson Content (30 minutes):

- Begin by discussing the key components of agroforestry, including the integration of trees and shrubs into agricultural landscapes.

Highlight the benefits of agroforestry:

- Enhances biodiversity
- Improves soil health and productivity
- Provides shade and windbreaks for crops
- Increases resilience to climate change
- Aids in carbon sequestration and reduces greenhouse gases
- Organize the students into small groups to brainstorm real-world examples of agroforestry systems, such as alley cropping, silvopasture, and forest gardens.
- Facilitate group presentations, allowing each group to share their findings with the class.

- Conclude this content section by summarizing the importance of agroforestry based on the presented examples.

Resources used during this section:

- KLB BK IV Pg 201-202
- Longhorn Bk 4 Pg 167-168
- Visual aids (charts or images of agroforestry systems)

Learning activities conducted:

- Group discussions
- Presentations
- Interactive Q&A session

Conclusion (5 minutes):

- Summarize key points about the significance of agroforestry in promoting sustainability and environmental health.
- Conclude by reminding students of the importance of adopting agroforestry practices in their communities and future agricultural endeavors.
- Encourage them to read the assigned pages from their textbooks for a deeper understanding.

Resources used:

- Chalk board/white board
- A piece of chalk/marker pen
- Textbook

List of learning activities:

- Summarization
- Homework assignment reminder

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____
SCHOOL/INSTITUTION: _____
FORM: 4
TERM: 3
SUBJECT: AGRICULTURE
TOPIC: AGRO FORESTRY
SUB TOPIC: IMPORTANCE OF AGROFORESTRY
WEEK: _____ **LESSON NO:** _____
DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

1. Explain the importance of agroforestry.

LESSON PRESENTATION

Introduction (5 minutes):

Begin with a friendly greeting to engage students.

Introduce the topic of agroforestry, linking it to previous lessons about sustainable agriculture and environmental conservation. Highlight that understanding the importance of agroforestry is vital for preserving biodiversity and improving agricultural practices.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- KLB BK IV Pg 201-202
- Longhorn Bk 4 Pg 167-168

Learning Activities:

- Quick brainstorming session on what students know about agroforestry.
- List responses on the board for visual engagement.

Lesson Content (30 minutes):

1. Definition and Overview of Agroforestry (10 minutes):

- Define agroforestry and explain how it integrates trees and shrubs into agricultural landscapes.
- Discuss its historical significance and how it has evolved over time.

2. Key Benefits of Agroforestry (20 minutes):

- Environmental Benefits: Discuss how agroforestry promotes biodiversity, improves soil health, enhances water retention, and mitigates climate change by sequestering carbon.
- Economic Benefits: Explain how agroforestry can provide additional income through timber, fruits, and nuts, while reducing costs through improved soil fertility and pest management.

- Social Benefits: Emphasize community empowerment, food security, and preserving cultural landscapes.
- Group Activity: Divide students into small groups to discuss a specific benefit of agroforestry. Each group will present their discussion points to the class.

Resources:

- KLB BK IV Pg 201-202
- Longhorn Bk 4 Pg 167-168
- Visual aids (charts, posters) if available

Learning Activities:

- Group discussions on benefits
- Class presentations from each group
- Peer feedback after presentations

Conclusion (5 minutes):

Summarize the key points of the discussion, reiterating the importance of agroforestry in promoting sustainability, enhancing agricultural practices, and protecting ecosystems. Encourage students to think of ways they can implement agroforestry concepts in their own communities or future farming practices.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- KLB BK IV Pg 201-202
- Longhorn Bk 4 Pg 167-168

Learning Activities:

- Recap exercise where students share one takeaway from the lesson.
- Brief discussion on what will be covered in the next lesson regarding agroecology.

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____
SCHOOL/INSTITUTION: _____
FORM: 4
TERM: 3
SUBJECT: AGRICULTURE
TOPIC: AGRO FORESTRY
SUB TOPIC: TREE NURSERY.
WEEK: _____ **LESSON NO:** _____
DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

1. State factors considered when selecting the nursery site.
2. Describe treatment of nursery seeds.

LESSON PRESENTATION

Introduction (5 minutes):

Begin the lesson with a warm greeting, create a welcoming atmosphere, and briefly introduce the topic of "Tree Nursery." Explain its significance in agroforestry, touching on how tree nurseries contribute to environmental sustainability and tree planting initiatives. Present the objectives to the class and outline what will be covered.

Resources:

- Chalk board/white board
- A piece of chalk/ marker pen
- Textbook

Learning Activities:

- Question and Answer session
- Group discussions

Lesson Content (30 minutes):

1. Factors Considered When Selecting the Nursery Site (15 minutes):

- Discuss key factors such as climate, soil type, accessibility, water supply, and proximity to markets.
- Engage students in a group discussion to identify why each factor is important. Use the chalkboard to list responses, fostering a collaborative learning environment.
- Utilize images or sketches to illustrate ideal nursery setups.

2. Treatment of Nursery Seeds (15 minutes):

- Explain the procedures for seed treatment, including cleaning, soaking, and checking for viability. Discuss the different methods used for different seed types and how treatment affects germination rates.
- Conduct a Q&A session to clarify concepts and invite students to share any experiences or knowledge they might have about seed treatment.
- Refer to KLB BK IV Pg 203-205 and Longhorn Bk 4 Pg 169-173 during the discussion to provide supporting information.

Resources:

- KLB BK IV Pg 203-205
- Longhorn Bk 4 Pg 169-173
- Chalk board/white board
- A piece of chalk/ marker pen

Learning Activities:

- Group discussions
- Visual aids (images/sketches)
- Q&A session

Conclusion (5 minutes):

Summarize pivotal points of the lesson, reiterating the importance of selecting the right nursery site and the methodical treatment of seeds. Reinforce how these practices contribute to successful tree propagation. Preview the next lesson on the management practices in tree nurseries.

Resources:

- Chalk board/white board
- A piece of chalk/ marker pen
- Textbook

Learning Activities:

- Quick recap dialogue
- Preparation for the next lesson discussion

Teacher Self-Evaluation:

TEACHER'S NAME: _____ **TSC NO:** _____

SCHOOL/INSTITUTION: _____

FORM: 4

TERM: 3

SUBJECT: AGRICULTURE

TOPIC: AGRO FORESTRY

SUB TOPIC: NURSERY MANAGEMENT PRACTICES & CARE AND MANAGEMENT OF TREES.

WEEK: _____ **LESSON NO:** _____

DATE _____ **TIME** _____

Objectives:

By the end of the lesson, the learner should be able to:

1. Identify practices carried out on the nursery in order to produce healthy tree seedlings.
2. Describe the care and management of trees.

LESSON PRESENTATION

Introduction (5 minutes):

- Begin with a warm greeting to set a positive tone for the class.
- Briefly introduce the topic of nursery management practices and care and management of trees. Highlight the importance of healthy seedlings for environmental sustainability and forestry.
- State the objectives for the lesson.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- KLB BK IV Pg 205-208
- Longhorn Bk 4 Pg 173-177

Learning Activities:

- Brainstorming
- Discussion
- Practical activities (transplanting seedlings)

Lesson Content (30 minutes):

Begin by discussing what a nursery is and the essential practices needed to maintain a successful tree nursery. This includes:

- Selecting seeds and seedlings.
- Soil Preparation: Discuss the importance of soil health and preparation for planting.
- Watering and irrigation practices.
- Pest control measures.
- Fertilization: Importance of nutrient management.

- Environmental factors (light, temperature) affecting seedling growth.
- Engage students in a brainstorming session about the challenges faced in tree nursery management. Document their ideas on the board.

Transition to the second part of the lesson about the care and management of trees once seedlings are established. Discuss:

- Planting techniques: hole size, planting depth.
- Watering and mulching practices for mature trees.
- Pest and disease management.
- Pruning techniques to promote healthy growth.
- The significance of community involvement and sustainable practices.
- Encourage students to ask questions and facilitate a discussion around their thoughts on nursery management and tree care. This will deepen their understanding and encourage critical thinking about sustainable forestry.
- Conclude this section by summarizing the key points discussed.

Resources:

- KLB BK IV Pg 205-208
- Longhorn Bk 4 Pg 173-177

Learning Activities:

- Group discussions
- Note-taking on board
- Interactive questioning

Conclusion (5 minutes):

- Recap the important practices for nursery management and the essential care methods for trees. Highlight how these practices contribute to sustainable agriculture and forestry management.
- Encourage students to reflect on how they can apply this knowledge practically.
- Prepare the learners for the next lesson by mentioning that they will engage in practical activities related to planting techniques and tree care.

Resources:

- Chalk board/white board
- A piece of chalk/marker pen
- KLB BK IV Pg 205-208
- Longhorn Bk 4 Pg 173-177

Learning Activities:

- Summarizing key points
- Reflection on learning
